

## Sivoia QS | roller 200CW

The Sivoia QS roller 200CW shade utilizes the ultra-quiet, precision controlled Electronic Drive Unit (EDU). The Sivoia QS EDU is housed inside the roller shade assembly and controls the movement of the shade, keeps track of the shade's position, and adjusts the shade to the user's desired preset positions.

Roller 200CW is designed for commercial applications with large curtain walls. The EDU operates at an even, slow speed for subtle transition. It offers increased efficiency by operating multiple shade panels with one EDU.

### Features

- Ultra-quiet operation: will not exceed 38 dBA measured 3 ft (1 m) from the EDU
- Shades move in perfect unison and exact alignment within 0.125 in (3 mm) accuracy at all times
- Smooth, silent starts, and stops
- Offers programmable stop points. The EDU tracks the position of the shade and is able to adjust it to predetermined locations at the touch of a button.
- Provides maximum window coverage with the smallest possible light gaps, 0.75 in (19 mm) between the shade fabric and the window frame. Light gaps are symmetrical on both sides of shade.
- Control up to 6 shade panels with one EDU
- Provide smooth subtle transitions as shades move slowly and evenly
- Easy-to-read and easy-to-use controls are immediately understood
- Does not require group controls or relay systems to create shade groups and sub-groups
- 24 V<sub>DC</sub> low-voltage power
- Power failure memory for the lifetime of the product
- 8 year limited warranty

## Specifications

### Power

- Operating voltage: Low-voltage Class 2, 24 V $\overline{DC}$  power supply required
- Control system power supply offers (spike and brownout) overvoltage protection (+/- 10% of line voltage) for all devices in the system.
- Power supply provides appropriate Electro Static Discharge (ESD) protection for all devices in the system
- Power must be derived from a Lutron approved NEC Class 2 power source

### System Capacity

- System allows for a total of 100 devices, such as a Sivoia QS shade, a seeTouch® QS keypad, a GRAFIK Eye® QS, and QS power supplies
- System allows for a total of 100 zones, including Sivoia QS shades and GRAFIK Eye QS
- Maximum size of shade fabric per EDU is 200 sq ft (18.6 sq m)

### Performance

- System allows for symmetrical light gaps as small as 0.75 in (19 mm) on each side
- Each EDU stores presets positioned at any stop point along the shade's travel, as well as full open and full close shade limits
- Each EDU is capable of stopping with the accuracy of 0.125 in (3 mm) steps for the entire travel of the shade
- Preset points can be located at any point between the open/close limits and are adjustable with a 5 second button push and hold from the seeTouch QS keypads or GRAFIK Eye QS

- For systems with multiple EDUs, shades smoothly move in unison and exact alignment within 0.125 in (3 mm) accuracy at all times
- Limits are programmable and adjustable from the EDUs, wall-mounted seeTouch QS keypads and/or GRAFIK Eye QS

### Grouping

- System keypads can control any EDU, group, or subgroup without a separate group controller or additional interface.
- System groups and subgroups can be reconfigured at the point of control without rewiring and without access to the EDU.
- Controls within this system are able to operate any group or subgroup of EDUs, regardless of window treatment type.

### Integration

- EDUs seamlessly integrate with Lutron lighting control, GRAFIK Eye QS, without a separate interface
- Contact closure, R232, and ethernet available to integrate with A/V equipment such as timeclocks and security systems.

### Controls

- Sivoia QS shades can be controlled by built-in shade columns on a GRAFIK Eye QS, or by seeTouch QS keypads
- seeTouch QS keypads are low voltage
- Microprocessors are contained in the EDU, GRAFIK Eye QS, and seeTouch QS keypads, allowing high level programming from either source
- All Sivoia QS shades, GRAFIK Eye QS and seeTouch QS keypads are wired together on the same communications link
