

## Lutron Electronics Co., Inc. LED Driver Five-Year Limited Warranty

For a period of five years from the date of shipment by Lutron, Lutron warrants each new LED driver to be free from manufacturing defects. Lutron will, at its option, repair or provide a comparable replacement for any defective LED driver that, in the opinion of Lutron, has been installed and operated pursuant to Lutron product specifications, including operating below the maximum-rated operating temperature (T<sub>o</sub>)\*, and the applicable provisions of the National Electrical Code and of the Safety Standards of Underwriters Laboratories so long as Lutron is promptly notified of the defect within the five-year warranty period and, if requested by Lutron, the LED driver is returned to Lutron.

This warranty is in lieu of all other express warranties and all implied warranties, including implied warranties of merchantability and of fitness for a particular purpose. This warranty does not cover: the cost of installation, removal or reinstallation; damage resulting from misuse, abuse, or improper or incorrect repair; damage from improper wiring or installation; or incidental or consequential damages. Lutron liability on any claim for damages arising out of or relating to the manufacture, sale, installation, delivery, or use of the LED driver is limited to the purchase price of the LED driver.

No Lutron agent, employee or representative has any authority to bind Lutron to any affirmation, representation or warranty concerning the LED driver. Unless an affirmation, representation or warranty made by an agent, employee or representative is specifically included herein, or in standard printed materials provided by Lutron, it does not form a part of the basis of any bargain between Lutron and customer and will not in any way be enforceable by customer.

In no event will Lutron or any other seller be liable or responsible for any (i) consequential or special damages, (ii) repair work undertaken without Lutron prior consent, (iii) ancillary equipment not furnished by Lutron which is attached to or used in connection with the LED driver, all such equipment being expressly excluded from this warranty, or (iv) damage to the LED driver resulting from the use of ancillary equipment not furnished by Lutron for use with the LED driver.

This warranty provides specific legal rights. Other rights, which vary from state to state, may exist. Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply.

Contact the Lutron Technical Support Center at the numbers provided below or your local Lutron sales representative with questions concerning the installation or operation of a covered LED driver or this Warranty, or to make a warranty claim. Please provide the exact model number when calling.

A limited extended warranty for LED drivers is available for all Lutron OEM Advantage accounts, valid until either (i) 10 years from date of shipment by Lutron, (ii) LED driver operation totals more than 50,000 hours\*, or (iii) expiration of fixture warranty period provided by the manufacturer of the fixture in which the LED driver is installed. All other warranty policies remain unchanged.

\* The LED driver records maximum operating temperature and cumulative operating hours. Lutron shall extract and use this data to verify that the device was operated within the terms and conditions of this warranty.
