Rania D2 Adjustable

Adjustable, IC Fixture

PRODUCT DESCRIPTION

Rania D2 recessed LED downlights are available in fixed, adjustable, and wall-wash options to complete any lighting design project.

FEATURES

Exceptional White Light—Rania leverages a breakthrough three-channel solution, paired with proprietary optics and state of the art color mixing technology to deliver a wide CCT range and replicates natural white light more faithfully than any light source other than Ketra.

Natural Show—The Rania fixtures' wide color temperature range and native control enables it to participate in Lutron's Natural Show. Natural show automatically adjusts the intensity and color temperature of the light over the course of the day. It can be used to bring the outside in by matching outdoor light - from the cool bright light at noon to the warm lower light in the evening.

SPECIFICATIONS[1]

Optical Performance

Delivered Lumens[2]

Beam Angle	18 W
15° beam, high output	**1161 lm**
25° beam, high output	**1151 lm**
40° beam, high output	**1078 lm**
60° beam, high output	**1018 lm**
15° beam, low glare	**1018 lm**
25° beam, low glare	**1040 lm**
40° beam, low glare	**884 lm**
60° beam, low glare	**856 lm**

CRI (Ra)	**>90 from 2,700K to 5,000K**
R9	**>80**
Lumen Maintenance[3]	**50,000 hours to L70 @ 25 ˚C T_A**
CCT Range	**1800 K – 5500 K**
Dimming Protocol	**Wireless RF/CCX (Lutron Clear Connect-Type X)**
Dimming Range	**0.1-100%**

Delivered Efficacy

Beam Angle	18 W
15° beam, high output	**65 lm/W**
25° beam, high output	**64 lm/W**
40° beam, high output	**60 lm/W**
60° beam, high output	**57 lm/W**
15° beam, low glare	**57 lm/W**
25° beam, low glare	**58 lm/W**
40° beam, low glare	**49 lm/W**
60° beam, low glare	**48 lm/W**

Environmental

Ambient Temperature[5]	**32 – 104 °F (0 – 40 °C)**
Extended Ambient Temperature	**-32 – 32 °F (-35 – 0 °C)[4]**
Humidity	**0 – 95%, Non-condensing**
Certification	**UL, cUL, 120 V~: FCC Class B, IC Rated; T24(JA8)[6]**
Location	**UL Damp Location, UL Wet Location (shower) available with Trim Lens Installation not compatible with Metal Ceilings UL2043 and CAN/ULC-S142 rated for use in air handling spaces (plenums)**
Outdoor/Indoor	**Outdoor use available for fixed and adjustable option only in residential enclosed/covered patio applications. Trim lens required. Wall Wash option not available for outdoor applications.**
Limited Warranty	**www.lutron.com/warranty or call 1.844.LUTRON1 for a printed copy**

Mechanical

Mounting Options	**Supplied with standard 14 in to 24 in (356 mm to 610 mm) adjustable hanger bars and optional butterfly brackets**
Field Replaceable Optics	**Yes**
Field Replaceable Light Engine	**Yes**
Field Replaceable Power Supply	**Yes**
Field Fixture Type Convertibility	**Adjustable fixture can be used to achieve same features of an adjustable and fixed fixture only**
Fixture Weight	**6.2 lb (2.81 kg)**
Housing Material	**Pre-painted Steel, Polymer**
Lens Material	**Plastic**

1 All measurements are considered typical performance and were taken with 1 in (25.4 mm) white trim, with light engine at nadir, at 3000 K, 25 °C ambient, 100% power input, no accessory, unless otherwise stated.
2 Lumen measurement complies with IES LM-79-08 testing procedures.
3 Lumen maintenance values calculated in accordance to TM-21 procedures based on LM-80 compliant measurement data.
4 Color accuracy not guaranteed in Extended Ambient Temperature range.
5 Rated for direct application of spray foam compatible with low and medium density spray foam building insulation with a maximum of R6.8 per inch.
6 All products in the D2 family are Title 24 JA8 compliant when installed with a Trim Accessory lens on the trim. For more information, please contact Lighting Technical Support at lightingsupport@lutron.com or 1.844.LUTRON1 (1.844.588.7661).

SPECIFICATIONS[1] (continued)

Dimensions

Ceiling Hole Diameter/Width	**3.25 in (82.55 mm) flanged; 4.25 in (108.0 mm) flangeless round mud-in; 4.00 in (101.6 mm) flangeless square mud-in; 2.83 in (71.88 mm) flangeless millwork**
Ceiling Thickness (min-max)	**0.625 – 2 in (15.8 – 50.8 mm)**
Joist Width (min-max)	**Standard Hanger Bar Install: 18.25 × 14 - 24.875 in (463.6 × 355.6 - 631.83 mm) Butterfly Bracket Install: 16 in x 16.25 - 24.875 in (406.4 × 412.75 - 631.83 mm)**
Modular Emitter/LED Module Diameter	**2.15 in (54.61 mm)**
Housing Vertical Adjustment via Butterfly Bracket	**1.75 in (44.5 mm)**
Trim Thickness	**0.050 in (12.7 mm)**
Adjustability	**Emitter tilt to 40 degree Emitter full 365 degree rotation Collar 95 degree rotation**
Housing Height	**3.48 in (88.39 mm)**
Housing Length	**16.36 in (415.54 mm)**
Housing Width	**10.07 in (255.78 mm)**

Electrical

Power Consumption	**18 W**
Power Factor	**>0.9**
Inrush Current	**800 mA, 0.2 mS duration**
Surge Protection	**2.5 KV**
Voltage	**120 V~ 60 Hz**
Emergency Lighting	**Evaluated by UL® for use in emergency lighting systems in accordance with standard UL® 924 and CSA C22.2 No. 141 when paired with the LVS™ model LUT-SHUNT-A-TD (UL® file E206507)[2].**

1 All measurements are considered typical performance and were taken with 1 in (25.4 mm) white trim, with light engine at nadir, at 3000 K, 25 °C ambient, 100% power input, no accessory, unless otherwise stated.
2 See Lutron Application Note 106 (P/N 048106) at www.lutron.com for wiring details of emergency lighting in commercial systems.

Ceiling Thickness Options Table

Ceiling Type	Dimensions: in (mm)	Ceiling Thickness (collar type)
Flanged	0.625-1.25 (15.875-31.75)	Standard (S)
	1.3-2.0 (33.02-50.8)	Thick (T)
Flangeless Mud In	0.625-1.0 (15.875-25.4)	Thin (N)
	1.0625-1.375 (27.0-34.9)	Standard (S)
	1.4375-2.0 (36.51-50.8)	Thick (T)
Flangeless Millwork	0.625-0.9375 (15.875-23.8125)	Thin (N)
	1.0-1.3125 (25.4-33.34)	Standard (S)
	1.375-1.6875 (34.9-42.8625)	Thick (T)
	1.75-2.0 (44.45-50.8)	Deep (D)

1 Downlight is wet location rated when trim is installed with lens.
2 Only one optional optical or trim accessory can be used at a time.
3 Downlights with outdoor housings require a trim installed with lens.
4 The ceiling thickness option required varies by ceiling interface. See Ceiling Thickness Options table above for details.

D2 General Specifications

Rania's D2 LED Downlight can easily be commissioned into Lutron HomeWorks or Athena systems.

Wireless Capability: LED light source shall have an integrated wireless control on board.

Color Rendering Index (CRI): Capable of CRI greater than 90 at any point along the Black Body Curve from 2,700K to 5,000K.

Single Source Multi-Die Modular Emitter/LED Module Design: Employ a single source multi-die modular emitter/LED module consisting of LEDs binned to 3-step MacAdam ellipses.

LED Estimated Useful Life: Minimum of 50,000 hours at 70 percent lumen maintenance, calculated based on IES LM-80 test data.

Diagnostic reporting capability[1]: Clear Connect-Type X (CCX) light sources provide diagnostics and built-in technology to check input voltage and wireless connectivity.

Warranty: Lutron's light source is warrantied to be free from defects in material and workmanship for five (5) years or 25,000 hours from date of shipment, whichever is less.

Lighting System Capable of the Following Dimming Functionality:

1. Automatically mimicking natural daylight by shifting Correlated Color Temperature (CCT) and intensity based on time-of-day.
2. Shifting from high CCT at high intensity to low CCT at low intensity, mimicking dimming curve of an incandescent lamp.

Dimming Range: Dimmable from 100 to 0.1 percent measured luminous flux.

Color Point Range: Single light source capable of producing white light from 1,800K to 5,500K Correlated Color Temperature (CCT).

1 For diagnostics support or more information, please contact Lighting Technical Support at lightingsupport@lutron.com or 1.844.LUTRON1 (1.844.588.7661).
