Maestro[®] eco-timer[™]

Saves energy by automatically turning off a fan or light

Use the countdown timer with lights or exhaust fans to reduce moisture, mold, and mildew growth in bathrooms.

Replace your standard switch with the Maestro eco-timer and never accidentally leave the fan or lights on again!

Great for bathroom fans, closets, attics, basements, and low-traffic areas.

Maestro eco-timer (actual size)

Product Features:

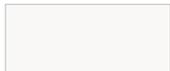

- The timer has a 1 to 30 minute countdown range, without an always-on option—so you'll never inadvertently leave your fan or lights on
- The LEDs move lower every five minutes, indicating the amount of "on" time left
- A one-minute warning signals when the fan or lights are about to turn off
- Controls a 3 A fan or up to 600 W/VA (5 A) of incandescent/halogen or magnetic low-voltage lighting
- No neutral wire required

Maestro® eco-timer			
Model Number		Control Type	Maximum Capacity
Boxed	Clamshell†		
MA-T530G-	MA-T530GH-	single-pole	600 W/VA (5 A) incandescent/halogen 120 V, MLV, or 3 A general purpose fan
