

# Dual-circuit Maestro sensor

Superior in-wall sensor featuring Lutron XCT technology

## Two circuits with independent settings:

- Set occupancy or vacancy sensing
- Set time-out (1 to 30 minutes)

**Maestro dual-circuit  
occupancy sensor switch**

- **XCT technology with cross-correlation:**
  - Won't leave you in the dark — no callbacks
  - Superior sensitivity recognizes the difference between fine human motion and background noise
  - Prevents false-ons and false-offs
- **Three options to save energy — in one sensor**
  - Dual occupancy
  - Dual vacancy
  - Occupancy/vacancy (Partial-on)
- **Mistake-proof wiring**
- **30+ year switch lifetime**

# Lutron sensors minimize callbacks

## XCT technology with cross-correlation — won't leave you in the dark

Lutron detects fine motion, like reading a book, better than other PIR sensors

Breakthrough sensing technology ensures lights stay on when a room is occupied and off when it is not.

### ✓ Major Motion

Person walking 3 feet

### ✓ Minor Motion

Movements like extending your arm

### ✓ Fine Motion

Small movements like flipping pages of a book

### ✓ No False On

Lights stay off when room is unoccupied

## Three options to save energy and meet codes — in one sensor

Meet automatic shutoff and multi-level lighting control requirements for energy codes. Learn more at [www.lutron.com/energycodes](http://www.lutron.com/energycodes).

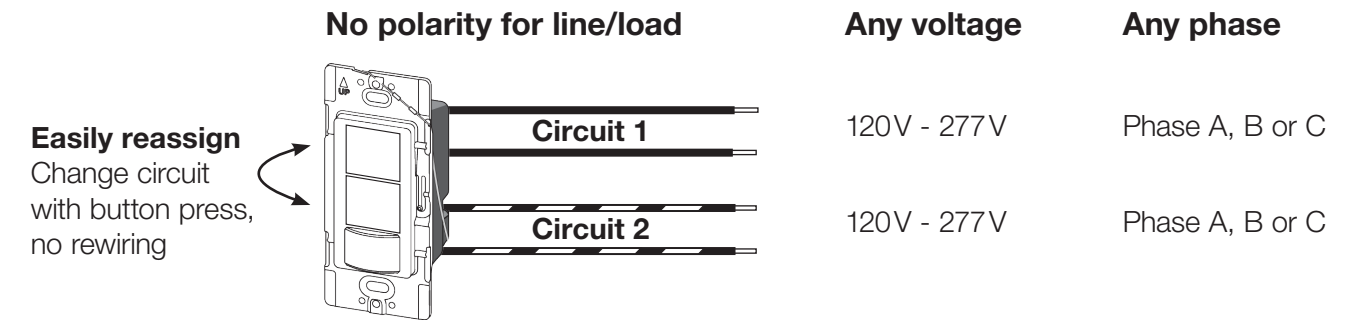

Maestro dual-circuit occupancy sensor switch

\*Configurable model allows for all three options; Partial-On model has fixed settings locked to occupancy/vacancy

# Product information

## Mistake-proof wiring

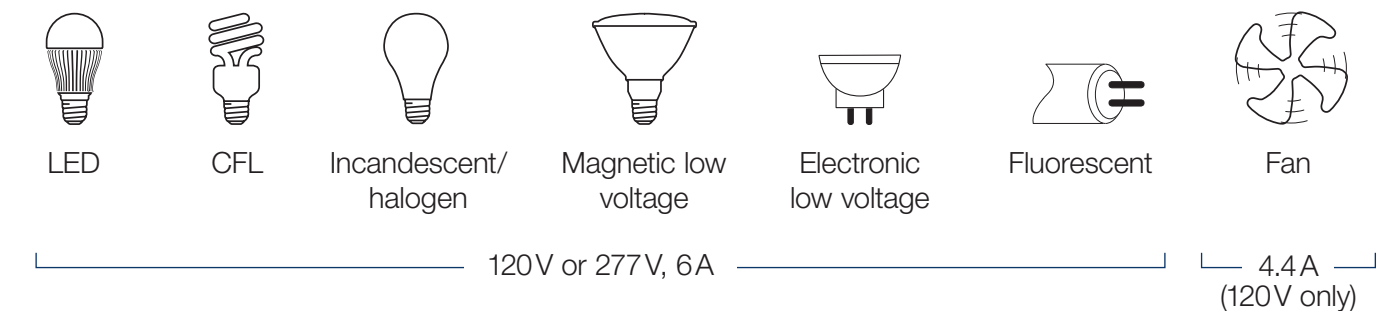

Install in minutes — no neutral wire required

## Lutron quality, reliability, and support

- 30+ year switch lifetime (250,000 on/off switch cycles)
- Smart ambient light detection learns your preferences to turn lights on only when needed
- 24/7 live technical support 1.800.523.9466
- Customer service/quotes 1.888.588.7661

## Controls all lighting and fan loads

## Design

- Stop installing bulky, industrial looking sensors
- Durable and attractive — crush-resistant lens ensures sensor lasts
- Match other Maestro controls in an office or home

# Largest line of colors available

## Gloss colors:

- S  white (WH)
- S  ivory (IV)
- S  almond (AL)
- S  light almond (LA)
- S  gray (GR)
- S  brown (BR)
- S  black (BL)

## Satin Colors:

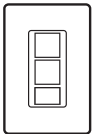

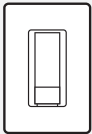

- hot (HT)
- merlot (MR)
- plum (PL)
- midnight (MN)
- sienna (SI)
- terracotta (TC)
- greenbriar (GB)
- bluestone (BG)
- taupe (TP)
- eggshell (ES)
- biscuit (BI)
- snow (SW)
- palladium (PD)
- mocha stone (MS)
- goldstone (GS)
- desert stone (DS)
- stone (ST)
- limestone (LS)

### Availability

- S  = Stock items, ship in 2 days
- = Satin Colors, ship in 2–10 days

## Ordering information

	Model number	Specifications	Voltage
<b>DUAL-CIRCUIT SWITCHES</b> 	MS-OPS6-DDV-XX* Configurable model	single pole 2-circuit model 6A lighting, 4.4A fan (120V only) per circuit	120-277V~
	MS-PPS6-DDV-XX* Partial-on model	single pole 2-circuit model 6A lighting, 4.4A fan (120V only) per circuit	120-277V~
<b>SWITCHES</b> 	MS-OPS2-XX*	single pole 2A lighting	120V~
	MS-OPS5M-XX*	multi-location/3-way/single pole 5A lighting, 3A fan	120V~
	MS-OPS6M2-DV-XX*	multi-location/3-way/single pole 6A lighting, 3A fan (120V only)	120-277V~
	MS-OPS6M2N-DV-XX* neutral model	multi-location/3-way/single pole 6A lighting, 3A fan (120V only)	120-277V~
<b>DIMMERS</b> 	MSCL-OP153M-XX* LED+ Technology	multi-location/3-way/single pole 150W dimmable LED, 600W incandescent/halogen	120V~

Multi-location dimmers/switches work with up to nine companion dimmers/switches

LED+ dimmer also works with mechanical 3-way switches

Vacancy-only models available. Replace “OP” with “VP” in model numbers above.  
(Not available in 2-circuit models.)

\* XX denotes color suffix (above)
