

Maestro LED+ dimmer

Maestro LED+ Dimmer for Dimmable LED Bulbs

Works with:

Dimmable
LEDs

Incandescent/
halogen bulbs

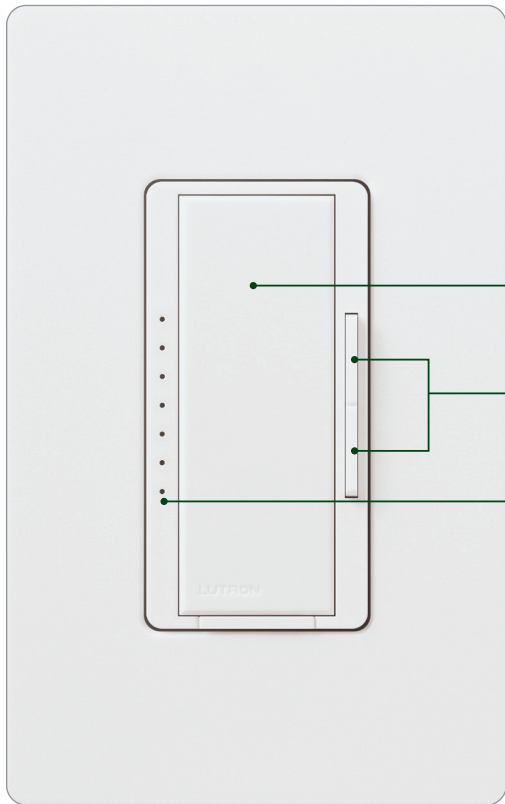

Features and Benefits

- Advanced technology for superior dimming of LEDs
- Patented technology to prevent dimmer interaction, flicker, and shimmer for beautiful LED dimming
- Multi-location dimming from up to 10 total locations (use 1 Maestro LED+ dimmer with up to 9 Maestro companion dimmers)
- Easy to adjust high-and low-end trim using button-press programming
- Delayed fade-to-off allows time to exit a room before lights turn off
- Advanced programming functions – set a preset light level, adjust fade rates, or adjust nightlight mode
- Matches the Maestro family of controls including dimmers, switches, occupancy sensors, and more

LEDs glow softly – easily locate dimmer in the dark
