

Simple, scalable, wireless  
**lighting control**

Office solution

## A More Flexible, Responsive Workspace

### Background

Offices are dynamic spaces that can provide a collaborative work environment for sharing ideas. Lighting and controls help support employee productivity.

### Challenge

Today's workplaces are constantly changing to better suit the needs of employees and tenants, whether it's touchless controls or easily programmed new areas. These spaces require flexible lighting control systems that enable personal control, respond to space concerns, and help optimize natural lighting and energy efficiency.

### Opportunity

Utilize an energy-saving wireless lighting control system that can easily be adapted to ever-changing demands of a workplace, supporting changing needs and new standards, while delivering the right environment to enhance safety, improve comfort, and support productivity.

## The Solution

Vive by Lutron is a simple, flexible, scalable lighting control solution, built on a proven wireless platform, for new and existing buildings. [lutron.com/vive](https://lutron.com/vive)

## Why Vive — Work Smarter, Not Harder

### Save time.

Quick installation time — 70% faster than wired control solutions — means shorter timelines and lower costs. Controls install quickly, and you can do them overnight, one room at a time, with no rewiring necessary.

### Meet code. Meet your needs.

Vive has simple, code-compliant solutions for any space in your building. Put the right controls in the appropriate office, and connect them all with just one system.

### Proven technology — it just works.

Millions of wireless systems have been installed in workspaces, offices, and business parks around the world, backed by industry-leading quality.

### Solve problems. Adjust effortlessly.

Simple software, available on your phone, allows you to re-program or adjust settings from anywhere. And Vive evolves with you, allowing you to make changes in your wireless setup without rewiring, so you can quickly adapt to new guidelines and needs.

### Easy to grow. Simple to manage.

With Vive, you can start with one office and add other spaces over time, without any rewiring required. With the Vive app, facilities teams can make changes to lighting, see alerts on low battery warnings, and modify their spaces without calls to the manufacturer.

For application design and sample BOM, find your code-compliant solution at [lutron.com/appguides](https://lutron.com/appguides)
