

## Lutron LED Control Center of Excellence

# Frequently Asked Questions

## LED Product Selection Tool Custom Links

### 1. What is the LED Product Selection Tool?

This tool provides access to a searchable database of products that have been tested by the LED Center of Excellence. Only products that have passed the testing and are recommended by Lutron are shown. The results of the tool provide links to LED Product Report Cards, which show the dimming performance of the selected product across a variety of Lutron controls.

### 2. Can I link directly to the LED Product Selection Tool?

Yes, the link is:

[www.lutron.com/ledtool](http://www.lutron.com/ledtool) (simplified URL), or  
<http://www.lutron.com/en-US/Service-Support/Pages/Technical/Design-SelectionTools/LEDDimmerMatrix.aspx>

### 3. What if I only want to show results from a specific manufacturer?

You can filter the results for a specific manufacturer by putting special text at the end of the URL (“? Manufacturer=[name of Manufacturer]”), followed by “#results” (to go directly to the results section of the page). Make sure to type in the manufacturer’s name as spelled directly from the LED Product Selection Tool Manufacturers list. Here is an example that just shows Report Cards from Philips:

<http://www.lutron.com/en-US/Service-Support/Pages/Technical/Design-SelectionTools/LEDDimmerMatrix.aspx?Manufacturer=Philips#results>

### 4. Can I show results from multiple manufacturers?

Yes, merely separate the manufacturers’ names by the pipe (“|”) character. Here is an example that shows Report Cards from Cree and Philips:

<http://www.lutron.com/en-US/Service-Support/Pages/Technical/Design-SelectionTools/LEDDimmerMatrix.aspx?Manufacturer=Philips|Cree#results>

### 5. What about spaces and other special characters in the manufacturers’ names?

Special characters must be changed in order to be properly formatted in a URL. Spaces must be replaced by “+”, slashes (“/”) must be replaced by “%2F”. On the next page is a complete list of manufacturers with the proper formatting applied (note that other manufacturers may have been added since this list was created; merely follow the same formatting rules). Here is an example that shows Report Cards for “Osram/Sylvania” and “GE Lighting Solutions”:

<http://www.lutron.com/en-US/Service-Support/Pages/Technical/Design-SelectionTools/LEDDimmerMatrix.aspx?Manufacturer=GE+Lighting+Solutions|Osram%2FSylvania#results>

## 6. Can I filter the LED Product Selection Tool results down to specific lamp model numbers?

Not at this time. Stay tuned for other improvements in the future.

## 7. Do I need to receive special permission from Lutron to create this link?

No permission is necessary from Lutron. You can create as many links for as many manufacturers as you want from your own website.

### List of Manufacturer Names with corresponding URL names

Name in Product Selection Tool	Name in URL
Advance	Advance
