# Lighting Functionality

#### **Occupant Enters:**

All lights automatically turn on to maximum light level. Maximum light level is set to 80%.

#### When Occupied:

Automatic: Overhead lights dim/brighten based on daylight availability. There is one perimeter daylight zone.

Manual: Occupant uses wall dimmers to set desired light levels for all lights.

#### **Occupant Exits:**

All lights automatically shut off 15 minutes (by default)after all occupants exit.

Add a Vive wireless hub to enable simple setup and rezoning, system monitoring, timeclock functionality, and advanced integration.

## Visible System Components

Pico wireless control

Radio Powr Savr wireless ceiling-mount occupancy sensor and daylight sensor

## Type of Solution

**Dimming:** Increased control, ambiance, and energy savings
