

NEW!

Take advantage of Pro Installer Mode in the Lutron App for Caséta and RA2 Select

As a Lutron PRO, you can now easily toggle between Pro Installer Mode and your personal account. You no longer need to log out of your personal Lutron system in order to set up a customer's system.

Use Your Device

Use your own smart device instead of the homeowner's phone for fast setup.

Save Typing Time

Auto-population eliminates the hassle of typing your name, phone number, email, Lutron PRO account number, and installer name into the Lutron App.

Earn PRO Points

Lutron PROs earn points* automatically for every completed job by adding their Lutron PRO account number to their myLutron profile.**

Remote System Access

Remotely assist your customers with their system from anywhere after initial setup.

Pro Installer Mode

1. Download the Lutron App 
2. Click on "Professional" on the home screen
3. Sign in to your myLutron profile**
4. Select "Setup a new system" (or access existing system if initial setup was previously completed)
5. Add installed devices to the system
6. When setup is complete, tap "Send homeowner invite"

7. Homeowner receives email to download the app and create a Lutron profile

*Become a Lutron PRO and earn points for completed, registered jobs. Once you become a PRO, associate your account number to your myLutron profile, so you can redeem PRO Points for free Lutron product. Sign up to be a PRO at lutron.com/PRO.

**Don't have a myLutron profile? Please register for one at lutron.com or use basic setup to get started quickly. Have an account but need to associate your Lutron PRO account number to your myLutron profile? Please see the PRO Program Details document on lutron.com/PRO.
