

Simple, touchless lighting control for today's world

To help slow the spread of germs, the UK government recommends frequent disinfecting of things you touch, such as light switches.

Let Lutron get the lights.
Your employees will be free to focus on their work.

Lutron has a variety of easily installed and flexible wireless solutions readily available that allow you to **rapidly reconfigure existing spaces to promote social distancing** — while reducing the instances in which you touch lighting controls.

- **Wireless sensors automate lighting control**
- **Automate your scheduling**
- **Program from a distance**
- **Use Pico personal remote controls**
- **Add additional sensors and Pico personal controls as needed between partitions**

Touchless controls for common areas

Solution 1

Quick, simple, and cost-effective

Lights automatically come on when an occupant enters the space, and turn off when they exit.

Perfect for small spaces such as private offices, equipment rooms, and more.

Pico wall mounted wireless remote (in a wallplate)
LPFP-S1-TXX

Wireless occupancy/
vacancy sensor
LRF3-OCR2B-P-WH

Wireless load control
PowPak relay module
RMKS-16R-DV-B

Touchless controls for common areas

Solution 2

No new wiring, 10-minute installation

Easily pair a wireless sensor to PowPak mounted in the ceiling to make your space touchless. Set the sensor to occupancy mode and automatically turn lights on when you enter a space, and turn them off when you leave.

Perfect for toilets, corridors, kitchen areas, and more.

Wall/ceiling mounted sensors
LRF3-OWLB-P-WH; LRF3-OCR2B-P-WH

Pico 1 column wallplate
LPFP-S1-TXX

Powpak
RMKS-16R-DV-B

Touchless controls for common areas

Solution 3

A multi-room or full campus (building) solution

Prepare your workplace for your employees' return. Vive Wireless enhances the ability to maintain social distancing with a variety of products featuring:

- Smartphone programming
- [Timeclock functionality](#)
- Pico dedicated personal remotes

Vive installs 70% faster than wired solutions and is simple to design, install, program — and adapt to changes.

Available for a single office, floor, building, or entire campus

Personal control

Easily add dedicated personal, adaptive control to any space by pairing a Pico wireless remote to a wireless load control. Allow individuals to set their own light levels without the need to touch common controls.
