

Serena Open Roll Shade

VERSATILE, LOW-PROFILE SHADING

Serena open roll's sleek, streamlined design pairs with all the available options in Lutron's extensive fabric library. It's the simplest way to bring the essential Lutron shade experience to your home.

The lowest profile Serena shade yet, Serena open roll features a clean, exposed roller aesthetic with a 3.45" headrail, delivering unobstructed sightlines and a modern look. Shades operate quietly at less than 44 dBA to create the perfect atmosphere throughout the day. And when connected to Caséta, shade control becomes smart.

- Available in hundreds of fabrics from delicate sheers to room-darkening options
- Simple quoting—all windows up to 48" W × 80" H are the same price; just count the number of windows and you've got your quote
- Larger windows are no problem—sizes can go up to 108" W by 120" H depending on the fabric selection

Whisper-quiet
Operation

Wide selection
of fabrics

Multiple shades
move in near-
perfect unison

CUSTOMIZATION, QUALITY & RELIABILITY

- Flexible mounting options—install inside, outside, or above trim—all with the same bracket
- Bracket can be screwed into the ceiling, jamb, or wall
- High-quality fabrics ensure years of sustained use
- Available in 7 bracket colors to complement your space
- 2-year minimum battery life and easy battery replacement—no tools or disassembly required

SEAMLESS INTEGRATION

- Create scenes and schedules by pairing shades with the Caséta smart hub
- With Caséta, you can control shades with your favorite devices—Pico remotes, the Lutron app, or a voice assistant
- Wire-free installation and control—with proprietary Clear Connect wireless protocol, shades operate reliably without Wi-Fi
