

Pico Line-Powered Wireless Control

The Pico line-powered wireless control is a flexible and easy-to-use device that allows the user to control Lutron wireless load-control devices from anywhere line voltage power is present in the space. This control requires connection to line voltage for power, but needs no wires for communication.

Features

- Provides control for the following:
 - Vive systems and compatible controls, including:
 - Maestro Wireless controls
 - PowPak modules
 - Wireless fixture controls
 - Wireless receptacle controls
- Powered by line voltage – supports applications that may require compliance to 2023 NEC, 210.70
- Can provide wireless control of lighting devices within a range of 30 ft (9 m) through walls and 60 ft (18 m) line-of-sight.
- Control available in Gloss finishes.
- This product is TAA compliant.
- Wallplate adapter / wallplate purchased separately (Claro wallplate [CW-1] shown).

Specifications

Regulatory Approvals

- Lutron Quality Systems registered to ISO 9001:2015
- cULus
- FCC Certified (U.S.A.)
- IC Certified (Canada)
- IFETEL Certified (Mexico)
- NOM (Mexico)

Power

- 120–277 V~ 50/60Hz
- Maximum power consumption 0.5 W

System Communication and Capacity

- Communicates using Radio Frequency (RF) at 431 MHz to 437 MHz.
- Thousands of system addresses prevent interference between systems.
- Can be assigned to control lighting and receptacle control devices that are within a range of 30 ft (9 m) through walls and 60 ft (18 m) line-of-sight.
- Range can be extended by use of a Vive hub.

Environment

- Ambient operating temperature: 32 °F to 104 °F (0 °C to 40 °C)
- Maximum 90% non-condensing relative humidity
- Indoor use only

Warranty

- 1 Year Limited Warranty
For additional Warranty information, please visit www.lutron.com/TechnicalDocumentLibrary/369-119_Wallbox_Warranty.pdf
