

## Lutron Tamper Resistant Receptacles and Plug for Dimming Use

Tamper resistant receptacles, unlike traditional receptacles, offer the added protection of a permanently installed, spring-loaded slider mechanism capable of resisting insertion of single pronged elements (such as keys, hairpins, or nails) while still allowing access to electrical plugs. Lutron Tamper Resistant Receptacles can be installed in accordance with article 406 of the National Electric Code (NEC®).

The NEC prohibits the dimming of standard receptacles. The dimmable outlets of the Dual Dimming Tamper Resistant (DDTR) and Half Dimming Tamper Resistant (HDTR) are specifically designed to mechanically reject all NEMA standard plugs and thus can not be used for any other device (fan, heater, vacuum, radio, etc.). These receptacles will only accept the special mating Lutron replacement plug for dimming use (RP-FDU). The result is an NEC compliant way to control a portable lamp with a dimmer.

### 15 Amp Tamper Resistant Receptacles

(XX in model number represents color/finish code.

For Canadian packaged products, add a

"-C" after the color/finish code XX.)

Model	Rating
CAR-15-DDTR-XX	15 A 125 V~ 60 Hz
CAR-15-HDTR-XX	15 A 125 V~ 60 Hz
SCR-15-DDTR-XX	15 A 125 V~ 60 Hz
SCR-15-HDTR-XX	15 A 125 V~ 60 Hz
* NTR-15-DDTR-XX	15 A 125 V~ 60 Hz
* NTR-15-HDTR-XX	15 A 125 V~ 60 Hz

### 20 Amp Tamper Resistant Receptacles

(XX in model number represents color/finish code.

For Canadian packaged products, add a

"-C" after the color/finish code XX.)

Model	Rating
CAR-20-DDTR-XX	20 A 125 V~ 60 Hz
CAR-20-HDTR-XX	20 A 125 V~ 60 Hz
SCR-20-DDTR-XX	20 A 125 V~ 60 Hz
SCR-20-HDTR-XX	20 A 125 V~ 60 Hz
* NTR-20-DDTR-XX	20 A 125 V~ 60 Hz
* NTR-20-HDTR-XX	20 A 125 V~ 60 Hz

### Replacement Plug for Dimming Use

Model	Rating
** RP-FDU-10-XX	10 A 125 V~ 60 Hz

### Key Design Features:

- Features on receptacle(s) for dimming use reject standard plugs

\* NOVA Ti★ receptacles ship with wallplate

\*\* Replacement plug available in White (WH) or Brown (BR) only

(CAR-20-DDTR-WH Shown)

(RP-FDU-10-WH Shown)

- Uses standard switched receptacle wiring (HDTR requires two separate live/hot feeds)
- Permanently installed internal tamper resistant shutter mechanism capable of resisting insertion of foreign elements into the device
- Specification grade construction
- Back wire installation capable
- Receptacle face compatible with NEMA designer and Nova Ti★ opening wallplates \*
- Plug may be used with standard receptacles and with new receptacles designed for dimming use
- Plug is compatible with 18 AWG (0.75 mm<sup>2</sup>) SPT-2 lamp cords
- Plug uses split-shell design for easy wiring and the ability to control cord exit direction
- Can be installed in accordance with article 406 of the National Electric Code (NEC®)

### Wiring Notes:

1. Wire terminals accept 10, 12 or 14 AWG (6.0, 2.5 or 1.5 mm<sup>2</sup>) wire. Solid copper or copper clad wire only.
2. See device for proper strip length of wires.

## Dual-Dimming Tamper Resistant (DDTR)

Loads plugged into these outlets will dim together.

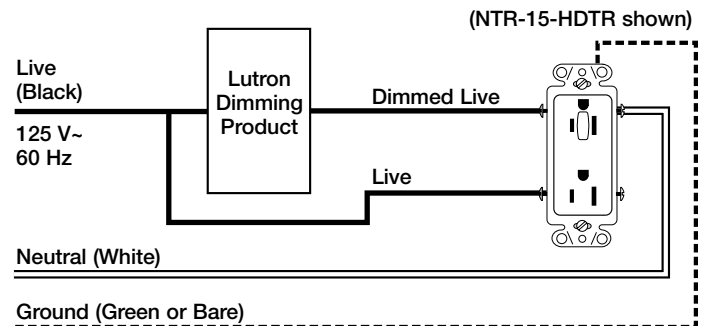

Each outlet will dim independently.

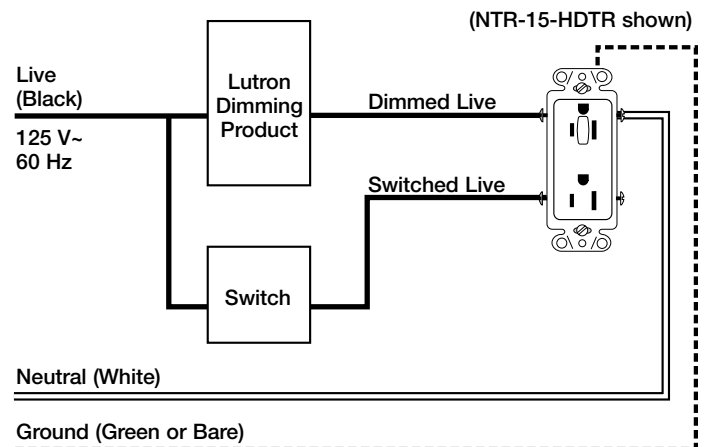

**\*\* NOTE:** To control each outlet of the receptacle independently, cut off the connecting link between the brass screws with a wire cutter.

## Half-Dimming Tamper Resistant (HDTR)

Top outlet will dim and bottom outlet will remain live.

Top outlet will dim and bottom outlet is controlled by a switch.
