

myRoom Server by Others

The myRoom software may be installed on a virtual server image or physical server provided by the customer’s IT department.

During system start-up, the certified Lutron field service engineer will install the myRoom software and any supporting software on the virtual server image or physical server. Supporting software may include but is not limited to Lutron specific applications, diagnostic tools or virtual machine images. The customer’s IT department staff must be available on-site to assist with this process.

The virtual server or physical server is dedicated for Lutron myRoom software only.

Software Required

- Microsoft® Internet Information Services (IIS) 7 or later
- Microsoft® Internet Explorer® 9 or later
- Microsoft® .NET Framework 3.5
- Microsoft® .NET Framework 4.5.1

Supported Operating Systems

- Microsoft® Windows Server® 2012 R2 (64-bit)
- Microsoft® Windows® 2016 R2 Server (64-bit)

Auto Restart Recommended

- Server should be configured to automatically restart when power is lost so it does not remain off when power is restored.
- Data recording is not active while the server is powered off.

Minimum Hardware Configuration Required

- Processor: Intel® Xeon® (4 cores, 8 threads 2.5 GHz) or AMD® equivalent
- 16 GB RAM
- 500 GB SSD
- Two (2) 100 Mbps Ethernet network interfaces
 - One (1) Ethernet network interface will be used for communication to myRoom panels.
 - One (1) Ethernet network interface will be used for communication to corporate intranet, allowing access for administration and client PC.

Note: Only one (1) Ethernet network interface is used if all myRoom panels and client PCs are on the same network.

Software Updates/Patches

- Note that Lutron will not be responsible for maintenance, security, and software patching of the server.
- Lutron recommends that the customer ensures that the server is installed and maintained as part of the customer’s IT infrastructure and involve the customer’s IT department in the patching, security, and maintenance of the server.
