# Discover the power of smart lighting
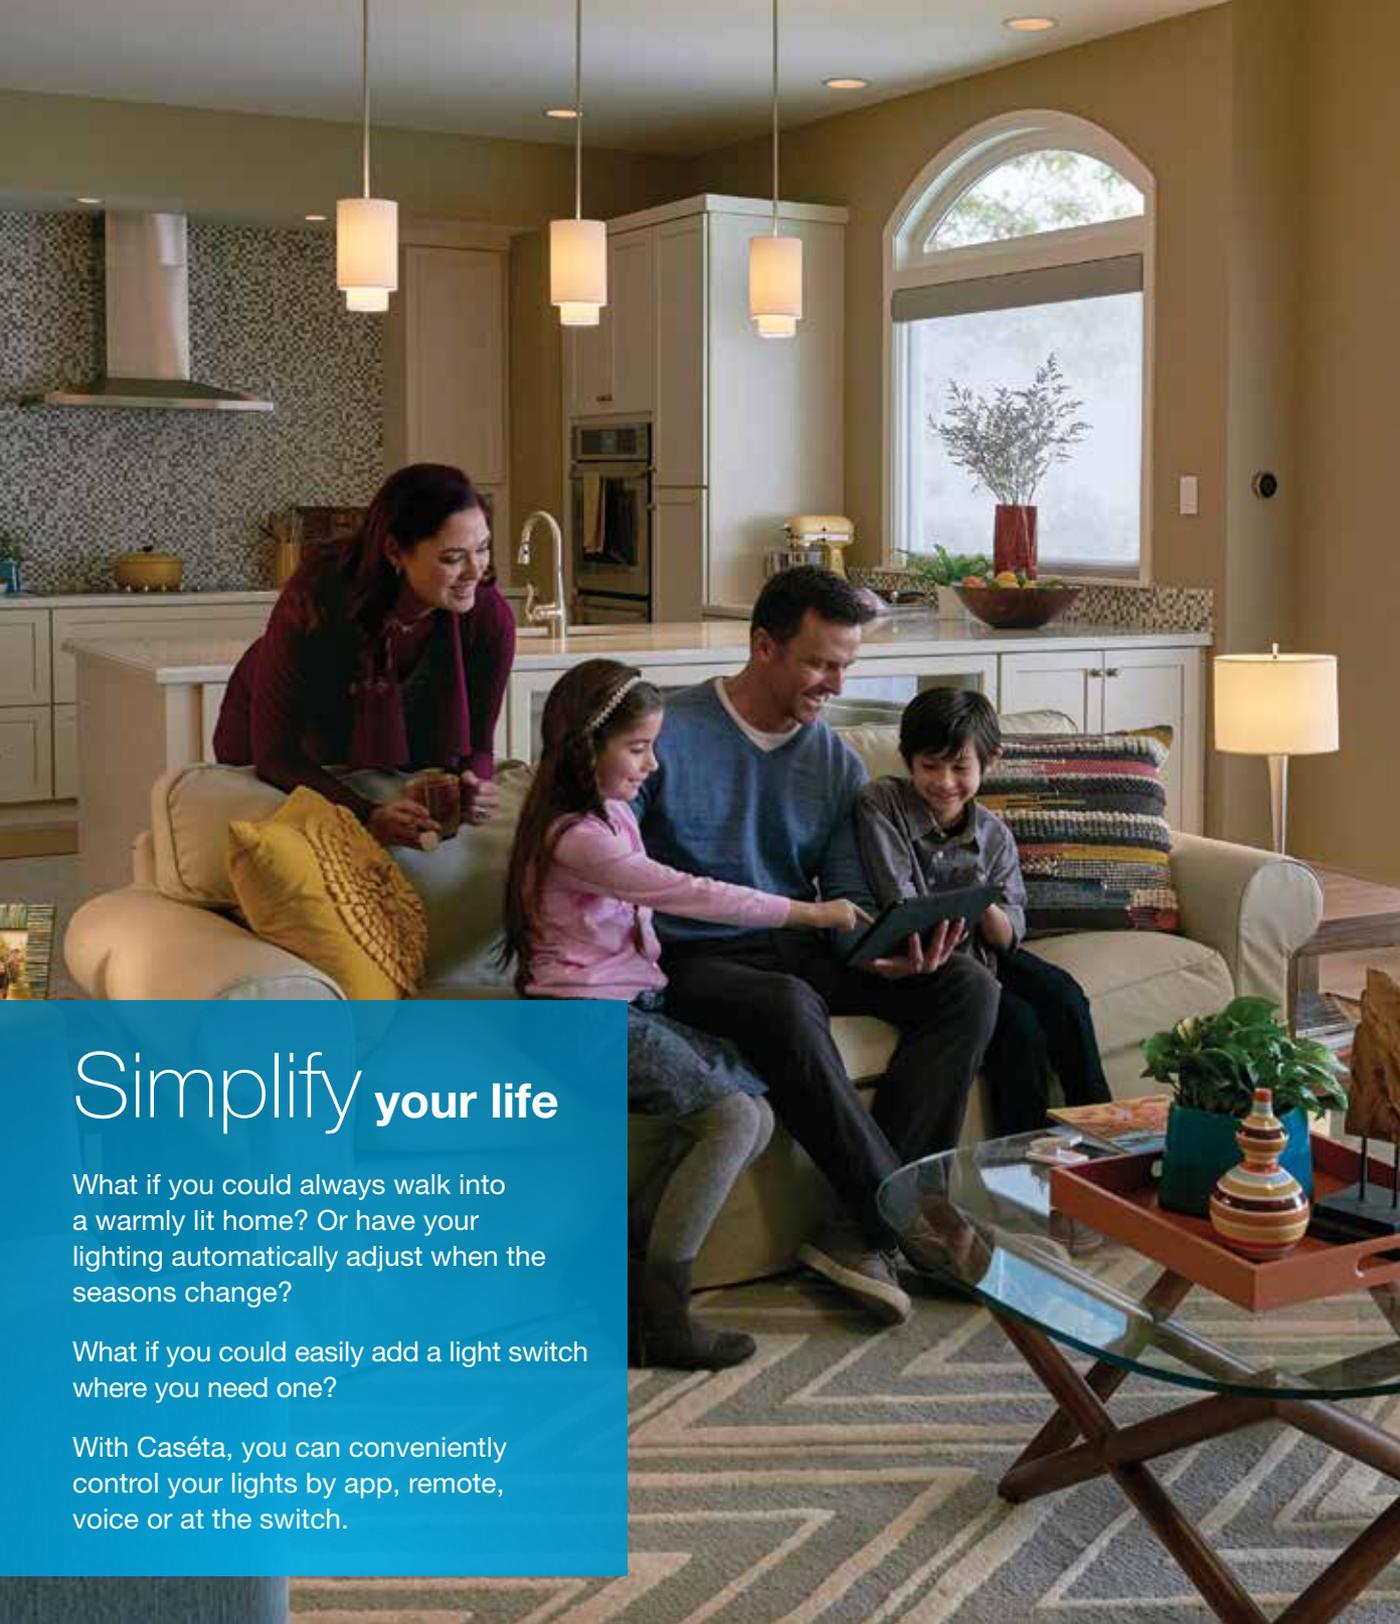

Simplify **your life**

What if you could always walk into a warmly lit home? Or have your lighting automatically adjust when the seasons change?

What if you could easily add a light switch where you need one?

With Caséta, you can conveniently control your lights by app, remote, voice or at the switch.

A smarter timer

Hassle-free scheduling — No rescheduling needed when the seasons change; your lights will automatically adjust.
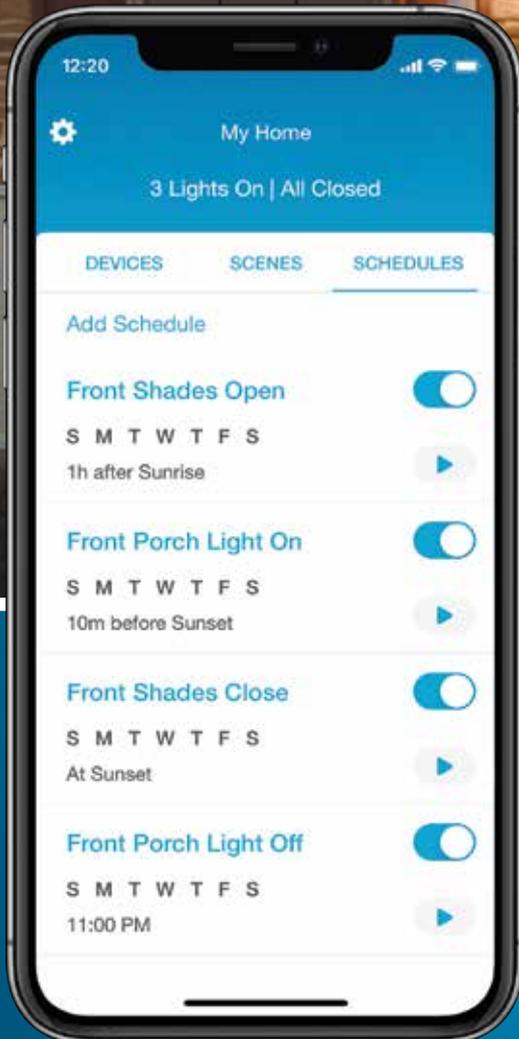

Create personalized lighting schedules for the way you live, so lights turn on/off at a set time or based on sunset and sunrise times.

Away on vacation? Activate Smart Away and lights will turn on and off in the evening so it looks like someone is home.

Pico remote wall-mounting kit

Add a switch where you need one most

Mount a remote to any surface—even brick or tile. Put it wherever is most convenient for you. No cutting holes or wiring required.

Lights off
with one touch

Ready to call it a day? Turn lights off with
a Pico remote without getting out of bed.

Movie

Set the scene

There's more to light than bright — Create the right light for any activity by controlling multiple lights at the same time — dim some and brighten others. Save your favorite scenes and activate them with a single touch.

Pico remote

2-step setup
Pairing a dimmer and a Pico remote is easy—just press and hold buttons.

Then you can adjust lights with one touch from anywhere in your home, or turn them on from your car.

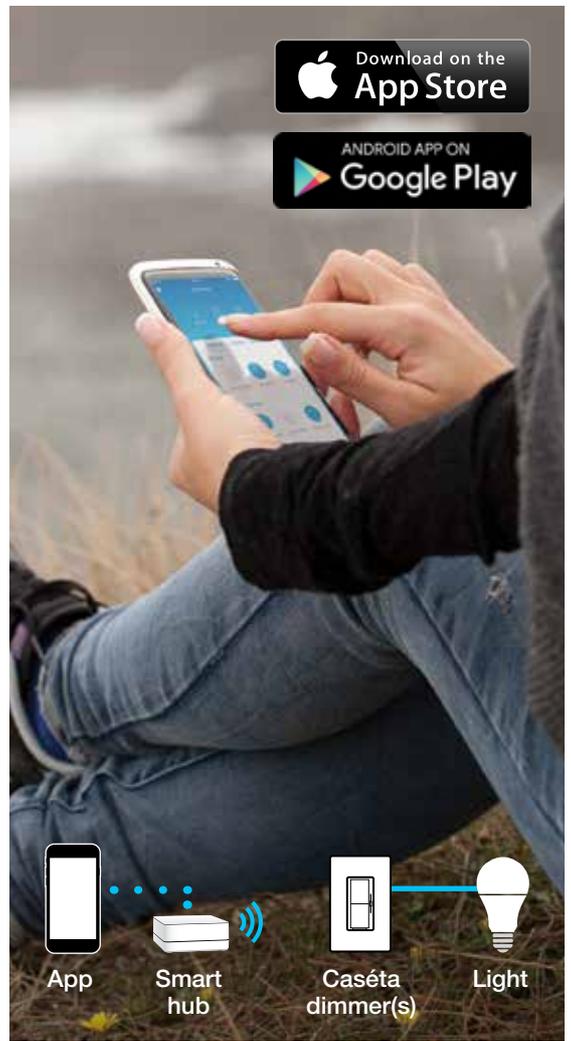

Smart hub and FREE Lutron App

Launch app and walk through setup
Monitor and control lights no matter where you are.

LUTRON

Getting started is easy

1. Install your dimmers.
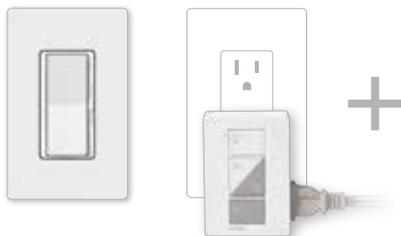

You can add more dimmers whenever you want.

2. Plug in the smart hub
and connect to your router.

3. Download the FREE Lutron App
and follow the instructions.
