

Why Choose Lutron Fixture Solutions?

Why Choose Lutron?

All-In-One Lutron fixture solution providing worry-free high quality system matched LED solutions.

	<p>standard Lutron 1% dimming driver</p>	<p>93 CRI</p>		
Guaranteed Compatibility with Lutron Controls	Standard flicker free Lutron 1% dimming driver	High quality LED colour & illumination	10-year up to 50,000 hr limited warranty	LED Control Center of Excellence and 24/7 technical support

Why Choose Finiré?

Architectural spec grade luminaire with industry leading LED light quality.

			<p>800 lumens</p> 	<p>2 Step</p>
IP65 and fire rated options	Round or Square, fixed or tilt options	12, 26, 51 degree, and wall wash beam spread options	800+ delivered lumens	Industry leading fixture-to-fixture colour consistency

Why Choose Lumaris?

Sleek LED linear fixtures with even high quality light distribution for various applications.

		<p>900 lm/m</p>		
Remote mountable driver up to 50m away	Diffused lens conceals LED hotspots	900 delivered lumens per metre	Easy install with electrical joints featuring piano key terminals	Small profile ideal for multiple applications

Why Choose Lutron Fixture Solutions?

Why Choose Lutron?

Guaranteed Compatibility with Lutron Controls

Fixtures were designed for ideal compatibility and performance with Lutron drivers and controls.

Standard flicker free Lutron 1% dimming driver

Fixtures provide smooth, flicker-free dimming from 100% down to 1%, utilising Lutron CE Certified drivers.

High quality LED colour & illumination

Lumaris has high 93 CRI (typical) colours quality to guarantee colours render accurately. Lutron ensures colours will always appear the way you expect them to today and years from now.

10-year up to 50,000 hr limited warranty

The 10-year limited warranty covers material and workmanship defects on the fixture and dimming driver for up to 10 years.

LED Control Center of Excellence and 24/7 technical support

Lutron has 24/7 technical support as well as an LED Control Center of Excellence, developed to providing answers to all questions about LED control solutions.

Why Choose Finiré?

IP65 and fire rated options

Finiré has an optional IP65 rating that allows it to be used in wet locations. There is also an available fire hood to meet fire code requirements.

Round or Square, fixed or tilt options

Choose from round or square, fixed or tilt (up to 25°) assemblies. Available in white or white with a black baffle.

12, 26, 51, and wall wash degree beam spread and wall wash options

Choose spot lighting, narrow directional lighting for high ceilings, medium task lighting, or wide flood lighting for flexible lighting in any application.

800+ delivered lumens

Finiré offers over 800 lumens of light output making it perfect for many applications. The small size and high lumen output make it flexible for almost any application.

Industry leading fixture-to-fixture colour consistency

Lutron fixtures provide industry best color consistency guaranteeing a two step MacAdam Ellipse.

☀ Lutron, Lutron, Finiré, and Lumaris are trademarks of Lutron Electronics Co., Inc., registered in the U.S. and other countries.

Why Choose Lumaris?

Remote mountable driver up to 50m away

You can remote mount the Ecosystem/ DALI Hi-lume 1% voltage LED driver with soft-on, fade-to-black up to 50m away from the light source (depending on the gauge of the wire).

Diffused lens conceals LED hotspots

The diffused lens conceals LED hot spots in high reflective surfaces such as granite counter tops. Like the other Lumaris lens options, the diffused lens provides a wide 130° light distribution in a modular lighting system available in 152mm, 305mm, 457mm, 610mm, 914mm, 1219mm sections with no visible light interruptions. This enables continuous flexible installation for both linear and radial configurations.

900 delivered lumens per metre

Lumaris offers 900 lumens per metre, giving it the lighting power to be used for general lighting in coves or to provide ample task lighting in under cabinet applications.

Easy install with electrical joints featuring piano key terminals

While Lumaris fixtures do come in pre-cut lengths, they feature a factory installed wire lead and in-fixture connectors that allow for quick, easy linking of fixture segments. This, paired with Lutron's specialised mounting bracket allow for separate Lumaris fixtures to look and act as one fixture, giving the flexibility of having any length in 152mm increments up to the full capacity of the driver.

Small profile ideal for multiple applications

With its small profile (32mm W x 18mm H) Lumaris is the perfect solution for tight space lighting applications: under cabinets, counters, and shelves, coves, and path/ steps (indoor only).
