

# VIVE SKILLED 2025

Learn to design, install, and commission wireless systems

## Work Smarter. Not Harder.

Earn the Vive Skilled badge and let your customers know they are hiring a trained expert in Lutron wireless control systems. Add the badge to marketing and promotional tools to promote your wireless expertise!

Vive Skilled is a hands-on, in-person, 4-hour training hosted by Lutron experts. Once you earn your Vive Skilled 2025 badge, you open up additional, online opportunities to further enhance your Vive design and commissioning skills.

For more details on how to become Vive Skilled, contact your local Lutron Sales Representative today.

vive

**Vive wireless is a simple, proven project solution that allows you to do more with less and work within your customer's budget and schedule.**

# GET STARTED TODAY

Attend a Vive Skilled 2025 course to become proficient in the design, installation, and commissioning of Lutron Vive wireless systems. Once you earn your Vive Skilled badge you can complete additional, online training modules to master advanced design and commissioning skills.

**The cost for the Vive Skilled, in-person course is \$150 per person. There is no additional cost for the online, Vive Designer+ and/or Vive Startup badges.**

## Vive Skilled (in-person course)

Prerequisite: Complete online signup and prework prior to in-person course attendance

\$150 per attendee

### Course learning objectives:

- Overview of Vive wireless lighting control
- Design and installation
- Support meeting energy code
- System programming
- Tools, resources, and additional support
- Keys to success

## Vive Designer+ (online course)

Prerequisite: Complete Vive Skilled 2025 course

### Course learning objectives:

- Setup and overview of Designer+ for Vive wireless
- Load controllers
- Emergency control
- Sensor layout and coverage
- Adding optional intelligence (Vive hub)
- Reports

## Vive Startup (online course)

Prerequisite: Complete Vive Skilled 2025 course

### Course learning objectives:

- Manual programming
- Programming with the app
- Setting scenes and favorites
- Creating schedules
- Disabling occupancy
- Data utilization

**For more details, contact your local Lutron Sales Representative today.**

Contractors have completed Lutron Vive Skilled training and are trained to design, install, and commission Lutron Vive wireless lighting control solutions. Lutron reserves the right to expect continued education. Vive Skilled Badge/Training expires 1 year from date of badge completion unless a Vive Skilled update class is completed within 90 days of badge expiration. Trained contractors can use the Vive Skilled badge to market their completed training in Vive wireless lighting controls on their website and marketing materials as long as their training is current. Lutron makes no warranties or representations as to, and is not responsible for, the installation work or other obligations of independent distributors and installers, nor does Lutron endorse any trained company. Purchasers should ask appropriate questions and request references before entering a contract with any party.
